

DEPARTMENT OF COMPUTER SCIENCE AND BUSINESS SYSTEMS**Organizes****A National level technical symposium****Treasure Hunt..!****RULES AND REGULATIONS:**

1. In the first phase ,the participants have to find maps which will lead their journey .The maps will be hidden in the room .The number of maps are limited so the teams have to find the maps as soon as possible.
2. The teams who maps are then ready to the treasure spots and discover clues for the next stages of the game.
3. As the levels progress, clues become more scarce, necessitating teams to act swiftly.
4. By connecting the clues, teams must solve the hurdles presented in the game.
5. Golden ticket is available , which helps in hunt by providing the clue or breaking down the passcode for the final treasure.

Do's:

- Team must have 2 members.
- They have to find the treasure within the time limit.

Dont's:

- Do not enter classrooms labs and libraries which does not include in treasure hunt.
- You are not allowed to steal other team's clue.
